Contents Volume 18

Vol. 18 No. 1–2

Ecdysteroids in helminths and annelids
G.C. Barker, D.J. Chitwood and H.H. Rees 1
The ecdysteroid receptor
Hans J. Bidmon and Timothy J. Silter 13
Alternative sites for ecdysteroid production in insects
Jean-Paul Delbeque, Karin Weidner and Klaus H. Hoffman 29
Insect cell lines as tools for studying ecdysteroid action
Laurence Dinan, Margarethe Spindler-Barth and Klaus-Dieter Spindler 43
Advances in techniques for ecdysteroid analysis
E. David Morgan and Maria Pilar Marco 55
Regulatory and developmental aspects of exdysone-regulated gene expression
William A. Segraves and Geoff Richards 67
Neurohormonal control of ecdysone production: comparison of insects and crustaceans
Wendy A. Smith and Dieter Sedlmeier 77
Ecdysone biosynthesis: pathways, enzymes and the early steps problem
J.T. Warren and C. Hetru 91
Abstracts of papers 101

Vol. 18 No. 3

Vitellogenesis in the gypsy moth, *Lymantria dispar* (L.): Characterization of hemolymph vitellogenin, ovarian weight, follicle growth and vitellin content
Robin E. Davis, Thomas J. Kelly , Edward P. Masler, Belgaum S. Thyagaraja, Vasuki Paramasivan, Howard W. Fescemyer, Robert A. Bell, and Alexej B. Borkovec 137
Effects of delayed settlement on survival, growth, and reproduction in the spionid polychaete, *Polydora ligni*
Pei-Yuan Qian, L.R. McEdward and Fu-Shiang Chia 147
Dispersal of *Ramazzottius* and other tardigrades in relation to type of reproduction
Roberto Bertolani, Lorena Rebecchi and Grazia Beccaccioli 153
Demonstration of a voltage dependent calcium current in follicles of the cockroach *Nauphoeta cinerea*
Erwin Sigel, Roland Baur, Joseph G. Kunkeh, Helmut Kindle and Beatricce Lanzrein 159
Calcium requirement for 5-hydroxytryptamine-induced maturation of *Spisula* oocytes
Arjun L. Kadam, Pournima A. Kadam and S.S. Koide 165
Ultrastructural study of the spermatogenesis of *Anodonta cygnea* L. (Bivalvia, Unionidae)
Eduardo Rocha and Carlos Azevedo 169
Circulation is required for egg production in the insect, *Rhodnius prolixus*
R. Gary Chiang and K.G. Davey 177
Preliminary report on a hybridogenetic stick-insect (Phasmatodea): The first case among invertebrates
Barbara Mantovani and Valerio Scali 185
Gonadotrophic hormone in Nephtyidae (Polychaeta, Annelida): Stimulation of ovarian protein synthesis
Peter J.W. Olive and Andrew Lawrence 189
Comparative ultrastructural analysis of spermatogenesis in *Pasimachus subsulcatus* and *P. strenuus* (Coleoptera: Carabidae)
Brian W. Witz 197
